### **Author's Note:**

Song: We fell in love in october by girl in red  
I never write smut like ever so please, if its bad  
please tell me!

*Smoking cigarettes on the roof.*

The boys laughed at the stupid joke Max had made. El curled into Max's side, yawning as she pulled the soft blanket up. Max looked down at the girl, smiling softly. The gang were sitting on couches Max had snuck up to her roof. They were passing around a joint and a bottle of vodka Mike had stolen from his dad.

*You look so pretty and I love this view.*

El hummed softly as Mike passed her the joint. Will looked at his watch as she took a puff and passed it Dustin. "Shit, my mom wanted me home by nine. See you guys tomorrow!" He said, running down the stairs. The boys all followed him since he was their ride. Max sighed, getting up from the small couch and cleaning up the small coffee table.

*We fell in love in October.*

"Max! Come sit, we can clean later! It's almost out." Max sighed, putting the bowl down and sitting next to her best friend. El Smiled, handing her the joint after she took a long drag. The smoke came out of her nose like a dragon. Max giggled at the Burnette.

*That's why, I love fall.*

Max inhaled the smoke coming off of the other girl before taking a puff of her own. She took a long drag before turning to El, blowing the smoke into the other girls mouth. She looked up at the sky, blowing it out into the air. Max smiled at her, biting her lip lightly. She handed the cancer stick back to her.

*Looking at the stars.*

El smirked, climbing onto Max's lap. She wrapped one arm around the girls neck, letting the blanket fall to the dirty floor. Max put her hands on Els waist. They were dangerously close to the other girls ass.

*Admiring from afar.*

El took another drag, blowing the smoke into the other girls face. Max could practically smell the alcohol and cherry gummy bears in the smoke.

*My girl, my girl, my girl.*

Max stared at her before crashing her chapped lips onto Els soft ones. She gripped Els waist tighter as she deepened the kiss. El wrapped both arms around Max's neck, being careful with the lit cigarette as she kissed back. She opened her mouth, granting Max permission to explore her mouth with her tongue.

*You will be my girl.*

Max traveled down, kissing her jaw then neck. She lightly sucked and bit on the soft skin. She tasted like vanilla. She pulled away from the girl to slip both their shirts off before returning to her actions. El moaned softly as she raked her hand through the other girls bright, fire-like hair. She tugged gently.

*My girl, my girl, my girl.*

The ginger moved down to the smaller girls b-cup breasts. They were much smaller compared to her d-cups, but hey, she wasn't complaining. She left small love bites on the girls breasts before moving down to her stomach to do the same. She licked around the girls belly button before kissing the milky skin. El threw her head back, sighing happily as Max moved downwards.

*You will be my world.*

She laid El down on the couch before unbuttoning the brunettes jeans. She pulled them down swiftly, taking the girls underwear off

too. El shuddered at the feeling of the crisp autumn air hitting her wetness. Max lightly rubbed the girls clitoris before bending her head down.

*My world, my world, my world.*

She looked up at El as she licked at her folds gently. El gasped as goosebumps appeared on her skin. Max smiled, holding Els waist tightly. She started lapping at her lips and sucking on parts of her thighs. El sighed happily. Max slowly thrust her tongue in and out of the girls hole, being ever so gentle. She lightly breathed on her vagina, sending a shiver through Els body.

*You will be my girl.*

She brought a hand down to rub small circles on the girls clit. She was afraid her mother might come up and see what was going on. She wanted to finish this as quick as possible.

*Smoking cigarettes on the roof.*

El left out soft moans as she felt the knot building in her stomach. Max thought they were the prettiest sounds the girl could make. El moaned, gripping onto Max's hair as she felt her orgasm building up.

*You look so pretty and I love this view.*

"M-max."

She pulled away from the girl for a second, "its okay. Go ahead baby."

*Don't bother looking down.*

El groaned as she felt Max's tongue sink back into her. She let herself go, moaning as he juices filled up Max's mouth. She breathed heavily as Max kept eating her out.

*We're not going that way.*

Once Max was sure El was finished, she pulled away. She carefully laid on top of the other girl. El was trying to slow down her breathing

when she realized Max had crawled on top of her. She smiled, pulling the younger girl in for a kiss.

*At least I know, I am here to say.*

They pulled away, smiling at each other. Max got the blanket off the floor and wrapped them both in it. She rested her head on Els chest, sighing happily. El smiled as she wrapped her arms around the other girls waist, holding her tightly. She kissed the top of her head before resting her chin on it.

*We fell in love in October.*

"I really like you, El,"

*That's why, I love fall.*

"I really like you too, Max."

*Looking at the stars.*

The girls went quiet for a moment. They both watched the night sky, both unaware of what to say next. Max looked up at El.

*Admiring from afar.*

"What are we?"

*My girl, my girl, my girl.*

El looked down at the girl. "What do you want us to be?"

*You will be my girl.*

"I wanna be yours."

*My girl, my girl, my girl.*

El giggled, kissing her forehead. "Then you are, My girl."

*You will be my girl.*

Max smiled before laying her head back down on Els chest. They

both fell asleep to the sound of each others breathing and heartbeats.

*My girl, my girl, my girl.*

*You will be my girl.*

*My girl, my girl, my girl.*

*You will be my world.*

*My world, my world, my world.*

*You will be my girl.*
